Mayor

RE: Triton Water, Letter of Recommendation

DATE: November 16, 2010

Triton Water has installed a Hexagram, Fixed-Based Meter Reading system in our City that we use to automatically read our water meters. We are pleased with the results and I would recommend Triton Water to others considering implementing this type of system.

If more information is needed, please do not hesitate to contact me at (337) 948-2520.
