RE: Letter of Reference

Dear Mr. Work:

I would like to take this opportunity to commend TritonAMI and the great job they did installing the Advanced Meter Infrastructure (AMI) for the City of Palatka's water system.

After a propagation study to pinpoint the most effective locations for data collectors, Triton's installation of Neptune's fixed base AMI system, including new meters, meter transmitters and data collectors began in November 2009. The installation was substantially completed in February 2010.

Contractually, the change-out was seamless. The professionalism displayed by both Triton and Neptune during that entire process was all that I could've asked for. There were no complaints or issues from our customer base. I would also like to commend Triton and Neptune for their ongoing technical support of the project. As we fine tune the system, your staff has worked with us to ensure that we enjoy full optimization of the technology.

I would highly recommend TritonAMI

Sincerely,

Elwin C. Boynton Jr.
City Manager
